Group reflection

- How did you feel about this milestone? What did you like about it? What did you dislike?
 - We thought this milestone went well and liked it because it directly related back to our milestone 3 content strategy and kept the flow of the project going nicely
- What did you learn about yourself as you collaborated and worked through this milestone?
 - We learned how all of these bi-weekly steps are finally leading up to the big picture and how everything actually fits together in a real project

Group Reflection

- How will you use what you have learned going forward?
 - We will use this going forward by continuing to piece together the rest of the project using cascade server to create our final product
- What “stuff & things” related to this milestone would you want help with?
 - This milestone was pretty straight forward relating back to the content strategy so not much help needed anywhere
